Dear **Jongyun Byun**,

On behalf of the organizing committee, we appreciate the time and effort that you invested into preparing and sharing your research with us at **the 15th International Conference on Hydroinformatics - HIC 2024**. Here is the result of your submission.

Abstract ID: 474

Abstract Title: Supervised Learning for CCTV Image Prediction

The First Author: Jongyun Byun

All Authors: Jongyun Byun, Jinwook Lee, Hyeon-Joon Kim, Jongjin Baik, Changhyun Jun

Review Result: Oral Presentation

For those whose submission has been rejected, we encourage you to continue your valuable research and consider submitting to future conferences or publications.

For those whose abstract(s) has/have been accepted as Oral Presentation or Printed Poster:

You are now invited to submit your **2 pages abstract** (compulsory for all participants) that will be published within the conference proceedings and to submit **a full paper** that will be published within one of the partner journals of **HIC2024**. **Please don't forget to upload your abstract and paper in *.docx format only by 30th April 2024 on the platform and submit them for review (Click here to upload).**

Please note that registration is required for all accepted abstracts. To secure your spot at the congress, please visit our registration page and pay your registration fee. If you have any difficulties with registration or payment, please do not hesitate to contact us for assistance.

On-site Conference

1. You will be given the opportunity of Oral Presentation and are asked to prepare a PowerPoint for this presentation. Speakers are kindly requested to pay the registration fee and use MS PowerPoint in English for their presentations.
2. Presenters are required to submit their presentations to the Congress's Speaker Ready Room at least half day before their scheduled presentation time to allow verification and transfer to the conference center system.

Please read the following instructions first before building PPTs.

PowerPoint Instructions (Slides template can be downloaded from the website homepage)

1. Please use the Microsoft PowerPoint 2010 or higher version* (*.ppt) or (*pptx), to guarantee it can be opened successfully on an on-site PC.

2. We recommend you to save your PowerPoint presentation using PPT(X) format instead of PPS.

3. Please note that we cannot guarantee the quality of Macintosh-based presentations; please check in advance their Windows compatibility.

4. JPG images are the preferred file format for inserted images. GIF, TIF or BMP formats will be accepted as well.

5. Movies: Please take steps to compress your videos (Less than 500M). Uncompressed videos will take longer to upload and will not be better quality than a modern MPEG-4 codec. We can only accept movies created as MPGs, WMVs or AVI formats. If you cannot convert the files or have a considerable number of MOV files, please check with a technician in the Speaker Ready Room who can make arrangements to convert the videos for you.

6. Considerations for Mac Users

Please bring your MacBook to the Speaker Ready Room one day prior to your arranged presentation to have a discussion with technician on-site first since keynote cannot be played on Windows.

POSTER DISPLAY GUIDELINES
